## Summary

A motivated and hardworking person, who is currently at Kingston University studying Creative Technology. I am seeking an job in the creative industry through my enjoyment in this current course as it has allowed me to develop skills in compositing, video editing, 2D/3D animations and also 3D modelling, texturing and rigging. I have now built a keen creative interest in 3D modelling and looking forward to start a career as a 3D modeller.

I am calm minded and hard working, with a good approach to working in a team and an eagerness to learn and develop personal skills in a practical setting. My eventual career goal is to become a fully qualified and experienced 3D modeller, with also the option of moving into 3D animation as well.

## Skills

### Software:

- Maya - 3D Modelling, Animation, Rigging, Texturing
- Adobe After Effects - Compositing, Video Editing, 2D Animation
- Adobe Photoshop - Image Editing
- Adobe Premiere - Compositing, Video Editing
- Adobe Dreamweaver - Creating a Website

## Work history

### Marketing Intern

**07/2016 to 08/2016**

### Paga – Lagos, Nigeria

Summer internship with a Financial Tech company based in Lagos, Nigeria. My role involved assisting the marketing team with graphic design projects.

The tasks that I carried out during this work placement were:

- Consistently meeting deadlines and requirements for all the designs
- Designed posters and short 2D animation video advertisements of the company
- Worked in a team with two other designers and shared ideas to develop a final project
- Develop more advanced skills in Photoshop and After Effects during projects

**General Assistant**

**04/2011**

## **Roast Restaurant – London Bridge**

I worked at Roast restaurant in London as part of my year 10 work experience. My duties included:

- Assisting with customer orders
- Maintaining and organising all restaurant crockery and supplies.
- Ensuring the overall cleanliness of all customer facing areas.

## **Education**

Bachelor of Science: Creative Technology

Current

Kingston University – Kingston upon Thames, Surrey, United Kingdom

## **Hobbies/Interests**

I enjoy watching video tutorials on the different software's that I use such as Maya, After Effects and Photoshop to further develop my skills and being able to create different side projects outside of university. On top of that I also like to watch behind the scenes videos for lots of action/science fiction movies because I find it very interesting what software the artists use for certain special effects and characters in those movies.

As I started my individual project, I have really started to find an interest in filming around different areas using my camcorder. I recently filmed around Kingston upon Thames and Canary Wharf and I have enjoyed using different filming techniques such as zooming in and out, doing rotating shots, etc.
